Summary Goal-oriented developer with proven ability to leverage full-stack knowledge to build interactive applications. I have experience working on teams using Agile Scrum methodology and facilitating cutting-edge engineering solutions.

WORK EXPERIENCE

TeamWorx Security

Software Engineer

September 2021 - January 2025

Columbia, MD Remote

- Conducted feature improvements, debugging, monitoring, and deployments of web and native applications.
- Utilized AI to generate summary reports for malicious files. This includes:
 - Prompt Engineering for strategies to allow users to communicate with an LLM for file analysis
 - Working with stakeholders throughout the organization to identify how to leverage AI to drive cybersecurity solutions
- Manage permissions to secure classified data
- Developed and maintained comprehensive end-to-end (E2E) test suites using Jest and Playwright

CarSwoop

Junior Software Engineer

August 2019 - October 2019

Santa Monica, CA

- Build upon an application and web platform using React for the frontend and Node Js/firebase for the backend. such as CSS, JQuery, Bootstrap, and HTML
- Leveraged collaboration tools to enhance team communication and project management, resulting in improved productivity.
- Utilized MapKit JS to display mapping in real-time for the location of drivers in the system.

PROJECTS

Eventure

<https://dotnet-react-eventure.fly.dev/>

Create events, add photos, chat with users, and build a following community with this website with the client written in React and the backend using .NET ecosystem written in C#

Material UI Recipes

<https://tastegenius.netlify.app>

Create a recipe or browse through original recipes to see the ingredients or instructions on how to make meals. Styled with Material-UI and written in React.

Media Matrix

<https://mediamatrixai.netlify.app/>

Transform your creative vision into stunning visuals with the power of artificial intelligence.

TECHNOLOGIES

Competencies: API Integration, Authentication, Authorization, WebSockets, Performance Optimization, Scalable Applications, Database Optimization, Backend Architecture, System Design

Software: Python, React, Angular, TypeScript, JavaScript, C#, Ruby on Rails, LaTeX, SQL, Java, AWS, GIT, Node.js, Express, Next.js, React Native, TailwindCSS, MaterialUI, PostgreSQL, MongoDB, ASP.NET, Tanstack, Zustand, Kafka, Playwright, MySQL, Jest, Cypress, Pub-Sub, Docker

EDUCATION

University of Massachusetts Dartmouth

B.Sc in Mathematics
